

DEAN ACTUARIES, LLC

Dean Actuaries is proud to have served as the OkMRF actuary for over 18 years. We value our experience with the Trustees, OkMRF employers and the participants.

OkMRF defined benefit pension plans have demonstrated a high degree of financial stability, excellent plan design and safe funding levels. They are a model of how defined benefit plans should be handled by governmental employers. We believe our service as the Actuary has contributed to these outstanding results.

Dean Actuaries also provides additional resources for OkMRF cities and the employee members. Here is the link to additional information: [OkMRF actuarial resources](#)

Some of the items available are:

- Annual letter from the Actuary
- GASB 75 OPEB presentation
- Retiree medical funding
- GASB 68 pension accounting issues
- Resources for employees of OkMRF municipalities
